

I can't tell you how many inspirational speakers we have worked with at our facilities in my experience here in Grand Junction.

We have had Depak Chopra, Mark Canfield, Aaron Ralston, as well as my experience with Country/Rock Jam Concerts with some of the best of the business that I have personally assisted in their visits including Reba McEntire, Tim McGraw, and ZZ Top. I have worked with politician organizers such as Barack Obama, Sarah Palin and sports stars such as Rosie Greer, Tommy Lasorda, Larry Czonka, Reggie Jackson and many many many more.

I tell you this only because of how impressed I was with your message and your presentation. In my line of business, we get to see, meet and hear some of the greatest in the world, even in little ole Grand Junction, but I have to say that your message I have since carried to my kids, my co-workers and even re-discussion with those that had attended the Beaver Creek Governor's Conference. I want you to know how impressed I was with you. Your approachability was amazing. Although I did not personally come up and talk to you, I watched how you were with others.

I am so pleased to have this opportunity to tell you thank you and thanks for the message your carry. Kudos to you for the work you do and best wishes in your future.

I certainly will keep you in mind in the event we have the opportunity to have you at Two Rivers Convention Center or the Avalon Theatre to continue to share your message.

Warm regards from Western Colorado,  
Donna Redd
