"Thank you for sharing your workshop with us. We learned that laughter is a key essential of physiological, psychological and social health and development. We at NASA often find that balance can be very difficult to achieve considering the complexities of our jobs. You helped us to learn that it is beneficial and gave us good tips to achieve it."

"She is every woman's mom, sister, neighbor, best friend. What's best is she's a nurse! So much wisdom and truth about life in terms that add no pressure to the already crazy, noisy life of a nurse! Thank you Karyn!"
