

ROBERT VAN ARLEN

Client Testimonials

"Robert truly ignited over 700 HR professionals at the 14th Annual Arizona Society for Human Resource Management (AZ SHRM) State Conference on September 3, 2008. After two days of continual educational sessions, the attendees were exhausted and overwhelmed. Then Robert presented his session and as the last keynote presentation of the conference, he inspired the attendees to go back to work with a new attitude! Robert received rave reviews for his performance and his common sense approach."

–Laura Krause, Arizona SHRM State Council

"Robert was able to illustrate, in a tangible way thanks to the colorful Boomwhackers, the message that we hoped our conference participants would ultimately take away – that we are all important parts in a larger “symphony.” It’s easy to focus only on your individual rhythm (or job), but hearing the result of everyone’s individual parts together was inspiring (as was Robert’s energy and charisma). Thank you so much for a wonderful presentation."

–Shelly Yocum, ASU Foundation

"Robert truly enhanced the General Session the 2008 Esker Americas User Conference. We purposely placed Robert at the end of the conference so that our attendees could be sent back to their organizations feeling motivated and excited about Esker! Our customers raved about Robert – and during a post conference survey only 2 attendees gave Robert the rating of ‘Good’, while the remaining gave a rating of ‘Excellent.’ Robert took time to get to know our organization and our customers – and incorporated this into his presentation. Robert was great to work with and we would recommend Robert to any organization looking for an energetic and relevant speaker!"

- Gina Lanzillotta, Marketing Coordinator, Esker Inc.
