Dear Kate,

Thank you very much for sharing your inspirational presentation at our SWICHN Board and Leadership Conference at Sun Valley. Our audience of hospital board members, executives and physicians were touched by your meaningful life experience and they were inspired to continually improve their organizations and address the unique challenges faced by healthcare providers, patients and family members. Your message will be long remembered by your powerful presentation and your book, "Paralyzed but not Powerless".

Sincerely,

Stephen Stoddard, MHA, FACHE
Executive Director
