Dear Kate,

While this letter is long overdue, I want to take a moment to personally thank you for your recent presentation in Cheyenne for the Business Leadership Network Symon Awards Program. Your program is one of the most motivational stories about one of the most determined, passionate and tenacious people I have ever had the pleasure to know—YOU!

Over 180 employers, business owners, students, employees and service providers were mesmerized from the first eloquent words you spoke, through your funny and engaging audience participation exercises, to the poignant message you left us all with: No matter what your place in life, you have the power to make your life fulfilling and meaningful.

The audience listened intently as you told your amazing story which tore at our hearts one minute, and then made us laugh and cheer the next! I dare say that not one person in attendance left the event without being thankful for everything good in their lives, and with a desire to live in a more thankful and passionate direction. More than motivational, your message was life-changing for those who have listened to your amazing journey.

Thank you for sharing your journey from Paralysis to Powerful! You are an inspiration to all who you touch. I am proud to now know you as a friend!
