Mr. David Jacobson, MSW

Dear David,

On behalf of the Arizona Kidney Foundation, I would personally like to thank you for taking the time from your very busy schedule to assist us with the M.O.R.E. Medical Seminar. Your vital contribution of information and expertise was invaluable. It is especially important to have a professional staff make these resources available to dialysis and transplant patients.

The patients appeared to be incredibly enthusiastic about the seminar, and I feel they were appreciative of the information you provided.

Again, thank you for taking the time in helping us with this important program. You were absolutely instrumental in making this Seminar a success.

Sincerely,

Ruthann Elms
Scholarship Coordinator
