Matthew Zachary
82 Clinton Street, Apt. 6F
Hoboken, NJ 07030

Dear Matthew -

We are pleased to provide the following references for you; feel free to quote these at your discretion.

"It isn't often that an album comes along which you like so much you travel with it... but *Scribblings* is just that. A smooth instrumental mixture of New Age piano blended with Cat Stevens-like arrangements produce amazingly mellow sounds to nurture and comfort the senses. Matthew Zachary's talented fingers tell a story of confident triumph over his brain tumor as his music moves from soft introspective sounds to gentle swells of confident joy. This instrumental album is a keeper, and we look forward to others!"

American Brain Tumor Association

"Matthew's concerts provide a glimpse into the professional mastery of a gift and a personal triumph over illness. He is a talented pianist in every sense, and a delight to work with. Our experience with Mr. Zachary could not have been better - his presentation was motivational and very well received.

American Brain Tumor Association

As I indicated earlier in our communication, we will soon begin planning the program for our family weekend next summer. We'll be in touch to be sure we can again incorporate a concert into the weekend's offerings.

If we can be of any further assistance as your plans unfold, please contact us. We look forward to working with you again...

Cordially,

Deneen Potter Hesser
Director of Patient Services
