Mr. Michael Scott Karpovich, CSP

Dear Michael:

We have been searching Webster's Dictionary for the right words to express our gratitude and appreciation for your recent presentation. We decided Webster had never heard any presentation so motivating or inspiring and therefore, could not possibly give the words we needed to express our heart felt thanks. So, given this inadequacy, we wish to thank you for your dedication, your willingness to share with us at a very deep level and your ability to lift, calm and motivate others to be their best. **The feedback from the program was outstanding and people are still calling, praising and asking for your return.**

You have been recommended to many groups for a presentation and we sincerely hope that they all have the opportunity to partake of the feast you offer them to learn what we had the opportunity to learn. A group at the education office in Stanislaus County said they would be contacting you.

On a personal note, I truly enjoyed our dinner together and the time we shared. It was very meaningful to me and I will always cherish that time with you. Thanks again for being YOU and sharing with us.

Sincerely yours,

Janice Matlock-Jensen, Ph.D.
Chairperson, Training Committee
