RE: State Pool Meeting

Dear Michael:

Thank you for **another very successful program**. On the basis of our Members' positive reaction following the August, 1998 presentation, I was confident that you would be very well received by our State Pool Members. My confidence was rewarded.

The feedback (forms enclosed) was complimentary to both your message and your presentation skills. **You fulfilled the difficult task I gave you; be both educational and entertaining. That mix is hard to accomplish, but you have successfully done so in each of our meetings.** Hearing you deliver your important message to the students of Oasis High School in Mt. Pleasant was an added pleasure.

It has been great working with you at each of our Membership meetings. I am glad that you have enjoyed it as well.

Regards,

Charles Schwab  
Director of Risk Management
