Dear Russell,

Thank you for your performance at our annual event held in October, 2009. We were thrilled with your ability to create a presentation crafted specifically for our organization.

Your depth of research on our organization and its fit within the community was evident in your speech and the slide show added to the theme of the event.

Your willingness to meet with our committee on several occasions prior to the day to learn about our organization and the opportunity you provided us to review the contents of your presentation assisted in presenting a memorable event. The amount of research and attention to detail in your presentation led to a "believability" factor, which resulted in success for the event.

As some attendees noted, you did a great job incorporating our programs and staff into the presentation. It was very funny and entertaining.

Once again, thank you for all of your hard work in preparing for this event and adding to the success of the day.

Regards,
