Dear Walter:

Thank you for the wonderful keynote address you gave at the Minnesota Legal Administrators Association 14<sup>th</sup> Annual Educational Conference and Exposition. Your topic "No One Can Stop You But You!" was the hit of the conference. All day attendees approached me to tell me that was the best kickoff to a conference they had ever heard. Others were so impressed that you had taken the time to learn what we do and were able to weave that into your personal stories and examples. The style and humor with which you delivered your message was perfect for this group and won't be forgotten by anyone.

The fact that you cared enough to do your homework and learn about our association and our profession did not go unnoticed. We have recommended you to our national organization and to the regional teams as an excellent conference opener or closer.

I hope that I'll have the opportunity to hear you speak again and look forward to working with you in the future. Thank you again for helping to make our conference a success.

Sincerely,

Dear Walter:

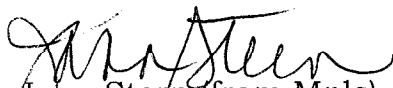

A belated thank you for the presentation you did for us in January. We enjoyed having you with us and have had numerous positive responses to your motivational message.

As a meeting planner, I appreciated your kind and enthusiastic staff (Antoinette!). We contacted you very late in the game and you so quickly got to know who ING was and personalized your presentation. I also appreciated you coming to dinner with the group and getting to know them a little before the meeting.

Thank you, again, and I hope we can use you for another ING group in the future!

Sincerely,

Dear Walter,

On behalf of Knutson Construction Services, thank you for a simply fantastic presentation yesterday. Knutson has been conducting bi-annual safety training for 11 years. When people were heading home yesterday, numerous participants made comments that this was the best seminar we ever conducted. The success of the program goes to you.

The presentation was entertaining, motivational, but most of all inspirational. Your ability to weave the story of your basketball and other personal achievements, and relating them to construction was exceptional. It was apparent you thoroughly researched our company. What I found most interesting and motivating was the story of your father. He must be a remarkable person.

When we had our pre-seminar meeting several weeks ago, I told you that at the conclusion of your presentation, I "wanted the problem" of being able to top this seminar. Well, I have a new problem to deal with.

Thanks again, and I look forward to using your service in the future.

Sincerely,
