What did you expect to learn from this session that was not covered?

- Expectations were covered.
- Techniques of effective leadership.
- I learned quite a bit on how to manage all staff members.
- It hit the main points.
- Create usages in which to handle any employee's/staff/controversy etc., disruptive behavior.
- Well covered, no item not covered.
- This session has inspired me to use ACPE for other opportunities.
- Session was very good.
- None at all.
- All covered.
- Nothing.

How can this presentation be further advanced?

- No improvement necessary.
- Better audio/visual at facility.
- It's great the way it is.
- Excellent info great if it were a 2day workshop. "Consider extending".
- More practical exercises.
- A couple more videos to spark involvement and feedback.
- The presentation materials were focused on managing physician performance, but most discussion was on general supervisory techniques. Most people in audience were neither physicians nor supervisors of physicians.
- Great presentation, well developed & professional..
- Provide more video scenarios to support principle/key issues on lessons.
- Need to include "real" examples of disruptive behavior & how it was really handled and effective results were detained. (no real names will be used).
- I think its fine like it is.
- I would not change a thing.
- More scenarios.
- Facilitator did an excellent job!
- Online continuous education.
- Outstanding.
- More hand on case study that will get the group more involved with the material being presented. I believe the video can be acted out to get a first hand experience of people's actions and reactions.

Please provide comments on this speaker or program that the College can use in the future.

- Very impressive with Marty's presentation. He thoroughly knew the subjects and was able to answer all question presented to him. Very informative speaker who do not bore you to sleep. Great deal of information put forth that can use in my managerial skills.
